

HOUSE OF COMMONS

LONDON SW1A 0AA

Cllr Sean Woodward
Leader of the Council
Fareham Borough Council
Civic Offices, Civic Way
Fareham, PO16 7AZ

03 November 2017

Dear Cllr Woodward,

FAREHAM BOROUGH COUNCIL DRAFT LOCAL PLAN – PROPOSAL HA2

I am writing to you to register my formal opposition to proposal HA2, the proposed development of 475 homes on Gosport's border, adjacent to houses on the western side of Tukes Avenue and Pettycot Crescent.

As Member of Parliament for Gosport, Lee-on-the-Solent, Stubbington and Hill Head, I know full well the huge pressures on local infrastructure, including roads, housing, schools GP surgeries and hospitals.

This proposal threatens the strategic gap between Gosport and Stubbington and I believe it is vital that we protect this land as a stretch of countryside that keeps communities distinct and prevents urban sprawl, whilst providing valuable green space to the local community. While acknowledging that we desperately need new houses, they should first and foremost be built on brownfield land, not green spaces, which are increasingly few and far between in the Solent region. I strongly urge Fareham Borough Council to maintain this area as a strategic countryside gap, as outlined in the previous Local Plan.

Furthermore, developing 475 at this site would create excessive pressure on our already overburdened roads, the difficulty of getting in and out of the Gosport peninsula is infamous and adding so many more cars to the local roads would be entirely unfair for residents, particularly my constituents in Bridgemarky. This development would negate any infrastructure works that have been planned and will cause the local infrastructure issues to become extremely unmanageable.

Additionally, I am further concerned about the pressures that this development would further put on our already full schools, Dental Practices and GP Surgeries.

Finally, I am also very disheartened to hear that the residents of 165 and 167 Tukes Avenue were unaware that their houses were mentioned in this document with proposals to

demolish their houses stating "to accommodate a 6m highway with 2m footways and some landscaping."

I sincerely hope you take my views into consideration upon deciding whether to keep HA2 in your Local Plan.

EARLEHAM BOROUGH COUNCIL LOCAL PLAN - PROPOSAL HA2

I am writing to you to register my formal opposition to proposal HA2, the proposed development of 415 houses on the site adjacent to the A1011, the site of the former 115 St. Andrew's and 115 St. Andrew's.

As a member of the Council, I am on the side of the local community and I believe that the proposed development will have a negative impact on the local community and the environment.

The proposed development is a large scale residential development which will have a significant impact on the local community and the environment. The proposed development will result in the loss of green space and the creation of a large scale residential development which will have a significant impact on the local community and the environment.

Further, the proposed development will result in the loss of green space and the creation of a large scale residential development which will have a significant impact on the local community and the environment. The proposed development will result in the loss of green space and the creation of a large scale residential development which will have a significant impact on the local community and the environment.

Finally, I am also very concerned to hear that the residents of 115 and 117 St. Andrew's were aware that their houses were mentioned in the document with proposals for the development of 415 houses on the site adjacent to the A1011, the site of the former 115 St. Andrew's and 115 St. Andrew's.
